New Forests

CONTENTS Volume 6 Nos. 1–4 1992

Introduction 1

Dedication 3

Keynote paper

CONKLE, M.T.: Genetic diversity – seeing the forest through the trees 5

Assessment of genetic diversity within and among species

MÜLLER-STARCK, G., BARADAT, PH. and BERGMANN, F.: Genetic variation within European tree species 23

MORAN, G.F.: Patterns of genetic diversity in Australian tree species 49

LOVELESS, M.D.: Isozyme variation in tropical trees: patterns of genetic organization 67

HAMRICK, J.L., GODT, M.J.W. and SHERMAN-BROYLES, S.L.: Factors influencing levels of genetic diversity in woody plant species 95

Biosystematics and adaptive significance of biochemical markers

STRAUSS, S.H., BOUSQUET, J., HIPKINS, V.D. and HONG, Y.- P.: Biochemical and molecular genetic markers in biosystematic studies of forest trees 125

HANOVER, J.W.: Applications of terpene analysis in forest genetics 159

BUSH, R.M. and SMOUSE, P.E.: Evidence for the adaptive significance of allozymes in forest trees 179

Mating systems, gene dispersal, and genetic structure within populations

MITTON, J.B.: The dynamic mating systems of conifers 197

ADAMS, W.T.: Gene dispersal within forest tree populations 217

ELLSTRAND, N.C.: Gene flow among seed plant populations 241

EPPERSON, B.K.: Spatial structure of genetic variation within populations of forest trees 257

Application of biochemical markers in forest management

WESTFALL, R.D. and CONKLE, M.T.: Allozyme markers in breeding zone designation 279

WHEELER, N.C. and JECH, K.S.: The use of electrophoretic markers in seed orchard research 311

SAVOLAINEN, O. and KÄRKKÄINEN, K.: Effect of forest management on gene pools 329

MILLAR, C.I. and WESTFALL, R.D.: Allozyme markers in forest genetic conservation 347

DNA as a biochemical marker

WAGNER, D.B.: Nuclear, chloroplast, and mitochondrial DNA polymorphisms as biochemical markers in population genetic analyses of forest trees 373

NEALE, D.B., DEVEY, M.E., JERMSTAD, K.D., AHUJA, M.R., ALOSI, M.C. and MARSHALL, K.A.: Use of DNA markers in forest tree improvement research 391

Commentary

GREGORIUS, H.-R. and BARADAT, Ph.: A commentary on current approaches to forest population genetics 409
